

Draft Franklin Local Board Plan 2020 – Clevedon summary

Outcomes, objectives, and initiatives of specific interest to Clevedon, Hūnua, Kawakawa Bay, Ardmore and Orere.

The following outcomes (goals), objectives and initiatives are contained within the Franklin Local Board Plan along with a range of others.

These have been listed here to support visitors to the Clevedon public consultation identify content that is likely to be of most interest. This is however just a snapshot of what is proposed. We encourage submitters to read the full plan when considering their submission.

<i>Outcome</i>	<i>Objective</i>	<i>Initiative</i>
1: Use our strengths to generate local opportunity and prosperity	Facilitate local economic development opportunity, and recovery by protecting and promoting our natural resources, local narrative, and local talents	Support businesses, mana whenua and local tourism agencies to leverage local economic development outcomes from local attractions including the Hūnua Ranges, and Glenbrook Vintage Railway.
		Advocate for improvements to mobile and broadband connectivity to enable local talent to work locally, even if their employers are based elsewhere.
2: Improved transport options	Make public transport easier for both urban and rural communities to reduce congestion, to live healthy active lives and to adopt changes that benefit the environment.	Advocate for improved bus services and parking options at Pine Harbour, so that growing and rural communities can access ferry services to the city.
		Investigate opportunities to proactively provide public transport services to Clevedon and Clarks Beach-Waiiau Pa concurrent with development.
	Improve existing and design new roads so that they are safe and accessible to pedestrians, cyclists, motorists, and emergency services while enabling environmentally sustainable transport choices.	Represent local interests and where possible leverage improvements for local communities from major infrastructure projects e.g. investment in pedestrian or cycling amenity as part of the Mill Road project.
	Enable communities to reduce carbon emissions by enabling active transport around and between towns and villages	Develop paths or trails that connect local destinations such as Waiiau Pa School to Clarks Beach and emerging Clevedon neighbourhoods with Clevedon School and village.

		Encourage uptake of active travel for commuting and leisure by advocating for, investing in, and supporting walking and cycling initiatives such as bike hubs in Clevedon and Beachlands, walking and cycling trails. We will support initiatives from Waikato District Council and Papakura Local Board that explore extending trails to Franklin Local Board area destinations.
3: Fit for purpose places and facilities	Towns, villages, and settlements are planned and developed to support growing communities and retain local character.	Adopt the 2019 Clevedon Village Design Framework as the Auckland Council plan that informs both private and public investment in future projects and services so that local character is protected, and service preferences referenced as these areas are developed.
	Plan and advocate for investment in parks, play facilities and existing pools, so that they can service future needs whilst retaining local character.	Investigate feasibility of a Beachlands Community Service Hub that delivers arts, library and civic services and programmes to growing local communities.
	Plan and prepare for effects of climate change on local facilities and amenity.	Assess how local climate change impacts from sea level rise, coastal storm induced flooding and coastal erosion hazard risk will impact affected communities and develop plans to inform a community-led and council-led response.
4: Kaitiakitanga and protection of our environment	Support community driven initiatives that will protect and restore the natural environment and address the impacts of climate change.	Partner with community and private landowners, to protect and restore local waterways through fencing, planting, mangrove removal and willow removal to help manage floods, create habitat for native biodiversity.
	Protect and enhance the mauri (lifeforce) of our awa (waterways), Moana (harbour) and ngahere (indigenous forests)	Partner with mana whenua, Papakura, Manurewa and Howick Local Boards and community groups to restore river and stream eco-systems with a focus on restoring inanga (whitebait) spawning habitat.
5: Cultural heritage and Māori identity is expressed in our communities	Showcase local history, culture, and stories in public places and through public events.	Work with the mana whenua, the governing body of Auckland Council and Watercare to tell the story of the Hūnua Ranges through the Hūnua Trail.
	Enable our people to engage with local history and share their cultures.	Invest in art initiatives that reference and celebrate local culture and history.
	Build and maintain mutually beneficial relationships with Māori.	Work in partnership with mana whenua to identify opportunities to deliver local projects, events, or arts activities together.
6: A sense of belonging and strong community participation	Our people are supported to actively contribute to their community and the places they live.	Support eco-volunteer partnerships through the eco-volunteer partnership fund, enabling community groups to lead delivery of environmental improvement initiatives that contribute to the protection and enhancement of environment.
	Support community-led arts and local events that bring people together to meet each other and have fun at no or low cost.	Fund and support activities for children and develop activities and programmes for youth in our town centres and villages.

Our community support agencies, resident groups and marae are supported to co-ordinate or deliver a range of community well-being and resilience services and programmes.

Continue to support Franklin Family Support and Waiuku Family Support and investigate options for a support agency to service the Wairoa sub-division villages and settlements.

Improve delivery of and access to arts, library, and community services to rural settlements, including by enabling internet-based services through our rural halls.

Like this or disagree? It is essential that we hear both support or challenge. Make your voice heard.

Paper forms will be at all service centres, local board offices and libraries or comment. Online: [akhaveyoursay/lovelocal](#) - register (one-off process) or on the Franklin Local Board Facebook page using #lovelocal

Consultation is open until 13th August.
