

Love Clevedon, Shop Local

May 2021

Introducing, Prickly Pots.

Tucked away down the sunny alleyway between Clevedon Takeaways and the Clevedon Village Reserve, you'll find Prickly Pots, an enchanted, plant-filled sanctuary curated by Melanie Cooper, a plant-lover through and through.

Prickly Pots is a plant lovers haven and offers an incredible selection of quality house plants, pots, planters & baskets, plant food, gardening tools, stakes and plant-related gifts.

"As soon as you walk through the door, an oasis of plants surrounds you," says Melanie.

Melanie's signature flower-painted red VW Beetle is hard to miss, and many of you will know her as the original owner of Clevedon Flowers.

"Prickly Pots isn't just a business. I have created it from the heart, from a real passion for plants and the positive effect they have on people and their environment."

"I always take the time to share my plant knowledge, tips and tricks – this is so important. It's always lovely seeing someone walk out the door with a spring in their step, having learnt something new. I love receiving photos from customers of their new plants in their homes or a picture of a new leaf that has just unfurled on a plant they purchased from Prickly Pots. Or when an excited customer DMs me that their plant has responded to a tip or trick we have discussed – these things put a smile on my face.

We asked Melanie what she loves most about doing business in Clevedon.

"The sense of community, local support and encouragement, as well as the diversity of visitors to the area."

Melanie, if you had to describe Clevedon in three words, what would you say?

History, Community, Opportunity
